

# Psychologist

Community Health Connection – Tulsa, OK

---

## Job Description

**Summary:** Responsible for implementation of Psychologist services provided on behalf of patients, including consultation, screening and evaluation, treatment, and oversight of treatment provision. Will work collaboratively with the medical team to design and implement an integrated system of comprehensive screening, direct behavioral health care, and consultation with the multidisciplinary team to improve overall health outcomes.

- Serves as psychological consultant to Medical Director and medical staff involving patients with an identifiable behavioral, cognitive, or psychological need.
- Works within the primary care model to implement integrative models of treatment provision that are compliant with best practices for behavioral health services in a medical setting.
- Design and implement a comprehensive screening program for behavioral and psychological needs to patients.
- Independently conducts initial and follow-up psychological evaluations (including brief cognitive, behavioral, and emotional screening) of all patients referred for psychological services.
- Plans, organizes, implements and documents psychological interventions based on the result of psychological evaluations and in conjunction with the treatment team.
- Provides crisis intervention and emergency consultation(s) when required.
- Provides consultation and in-service training to staff on behavioral/psychological management of patients.
- Maintains knowledge of, and complies with, all relevant laws, regulations and policies, procedures and standards.
- Actively participates in creating and implementing improvements to achieve clinical, satisfaction and/or efficiency outcomes.

Job Type: Full-time
